

REQUEST LETTER FOR SPONSORSHIP

09 June 2014-06-09

The Department of Master in Language Technology
Göteborg, Sweden

Dear Mr Robert,

We are a motivated group who organize the Free Society Conference and Nordic Summit (FSCONS). The conference is a grass-roots event that encourages networking and dialogue, and everyone is invited to participate in the work. The essential goal of FSCONS is expansion: expanding the accessibility of digital and technological information to everyone in the world; expanding the interest and promotion of free culture and free software; expanding the opportunities for all interested parties from around the globe to engage with others in hopes of changing the future of digital culture.

The conference takes place once a year and grabs attention a large number of individuals, academics and organisations not only from from all over Scandinavia but only other countries , who are interested in our thematic discussions. I'm therefore writing to you with regards to an opportunity to be a part of our conference.

We plan to hold the conference from to.... November, 2014 which will last days fullfilled with various activities in forms of workshops, seminars and meetings. We would like you to join us on this event and would really appreciate if your department can help us by sponsoring with the amount of 20 000 SEK. This sum of money would help us cover the costs of marketing, meals, transportation and practical tools for the conference. In return, we will show the logo of your department on all of our means of advertisements and promotion for the conference such as clothing, brochures, information flyers and website.

Thank you very much for your time and consideration.

Yours sincerely,

FSCONS
